# MICHELIN XZM

## 1 LONGEVITY

Massive tread pattern and two protection bands on sidewalls designed for long tire life and optimized cost per hour

Our rubber compounds allow the tire to travel at a max speed of 24.85 mph / 40 km/h.

## 2 DURABILITY

Optimize machine uptime

The high resistant metallic crown belt structure and innovative tread pattern provide additional puncture protection.

## 3 PRODUCTIVITY

Drive up to 9 miles in an hour at 15 mph with a counter-balance forklift<sup>(2)</sup>

Radial technology is the best option for operations requiring higher loads over long distance.

### TIRE CHARACTERISTICS

### ADDITIONAL INFORMATIONS

#### APPLICABLE VEHICLES

AND MORE

The MICHELIN XZM is the most durable tire in its class, with about 40% more life than competitors. Its robust radial steel structure is recognized over the world. Customers, such as Pepsi Qatar, are delighted to see their downtime and service costs reduced.

Port Tires Product Manager  
Michelin Group

(1) Characteristic of the product measured with the TKPH indicator. Distance per hour is directly correlated to the amount of tons transportable in an hour.
